

**Portable power distribution systems
for the firefighting services.**

**The only electrical power system that is
waterproof and crushproof, delivering
dependable electrical power safely, while
eliminating G.F.I nuisance tripping...**

386-873-2990 | Firepowerproducts.com

The Fire Power System by Duraline is engineered to eliminate dangerous GFI nuisance tripping and make electrical power available at the fireground **without any worry to the firefighter**. The system is engineered with abuse in mind!

Fire Power is the only system designed exclusively for the **safety** and **convenience** of the firefighter. They can't be crushed by other fire vehicles as other conventional connectors can. The firefighter can stop worrying about being left without power while fighting a fire. It is **easy to install, easy to lay out**, and above all else dependable.

All of **Duraline's Fire Power** portable electrical systems are specifically designed for long service life under rough conditions fire fighters experience.

- IP68 rated for 6' of water when mated and locked.
- Will not disconnect under high pressure hose
- Diesel / oil resistant
- V-0 flame resistant.
- Connectors are rubber molded directly to cable
- Custom options with NEMA connectors

Duraline was founded in 1946 as a supplier of safety-engineered electrical distribution systems for the shipbuilding industries. We have since grown to supply diverse industries such as petrochemical, aviation, medical, and fire safety.

Duraline products are proudly made in the U.S.A. All of the manufacturing is done in our Florida facility, established in 2012. To guarantee that our products are safe, we follow the most stringent manufacturing and quality control requirements and manufacture our products to conform with several recognized industry standards.

Duraline is committed to bringing the best product possible to our customers, including developing new products to match any needs our customers might have.
